A Legacy of Trust
and Integrity
SINCE 1995

Qualifying Your Calves as Program Cattle is Simpler Than You Think.

Source & Age Verified: We use your calving records and EID tags. That's it.

CARE Certified: Meeting essential animal care standards? You may already be on track.

NHTC (Non-Hormone Treated Cattle): No growth implants or hormone treatments.

Verified Natural: No antibiotics. No added hormones. No animal by-products. Fully documented.

- A \$10-\$12/head investment in verification and tags can return an extra \$35+/head.
- You're already tracking your cattle. These programs highlight your efforts and innovation.
- More bidders, more value. Gain access to premium buyers and better market opportunities.

Charolais Advantage maximizes the value of Charolais-influenced cattle by connecting producers with buyers and increasing market visibility. Designed for whole-chain performance, this program helps advertise cattle to repeat and prospective buyers, creating more bidding interest and enhancing sale opportunities.

Bundle with Charolais Advantage for even more market access!

WELCOME TO THE COBB RANCH 56TH SPRING BULL SALE

A.B. Buddy Cobb and Cecile Cobb bought their first Charolais in 1954 after seeing the white cattle in Arizona and were impressed by how well they did on the desert there. Later, they bought Maximiliano and Jalisco from the Michaelis family at Kyle, Texas, the original and premier breeding brought to Mexico from France beginning in 1930 by Jean Pugibet. Almost all our breeding stock has come from this exclusively linebred herd from the Michaelis family.

Linebreeding involves obtaining the best cattle for the foundation herd, then closing the herd to outside breeding, and breeding within the herd. Extensive and ruthless culling, coupled with extensive herd record keeping, is an absolute necessity in order to retain and track only those best characteristics which fit the breeder's goals, and to purify the stock from defects. The purpose of linebreeding is to refine and "set" the desirable genes within the gene pool order to produce greater predictability and uniformity of progeny. The famous "Line 1" Herefords developed at Ft. Keogh Livestock Experiment Station at Miles City are an outstanding example.

Buddy Cobb Joined the American International Charolais Association as a charter member and was a director. He was also a director and charter member of the old Pan-American Charolais Association. He joined the MT Beef Performance Association a year after it started. He was a charter member and director of the Mexican Charolais Association, and a charter member of the Canadian Charolais Association. In 1992 he was named as member of the Charolais Hall of Fame.

Cobb Charolais continues on with Cheryl and John Cobb, and Sarah and Mike Cobb families. John and Mike have grown up with these special Charolais. The operation has sold Charolais breeding stock for over 50 years, the first spring sale began in 1969, and we have second and third generation buyers. We truly appreciate all our customers. From the very beginning these cattle have been performance tested and selected for efficiency and economy, traits commercial cattle producers depend upon. These 60 years have allowed us to continuously improve and refine our product for consistent early maturity and fertility, more calving ease, heavy milking dams, structural soundness, and calm, docile temperaments, in addition to our trademark dependable gain and carcass traits.

In 2003, 36 head of newly banded Cobb purebred feeder steers averaged 3.77 lbs. of gain/day, with a 3.83 lb/day dry matter conversion, no growth implants or hormones. From this same group of steers averaged a dressing percentage of 63.7% off a 693 lb. carcass, live weight of 1088 lbs., averaging 2.2 sq. inch ribeye per cwt., with an avg. premium price to base weight at \$7.02 cwt. (data from independent feedlot). And these feeder steers were culled from the 2002 spring crop of bulls **before** the crop was placed on performance test.

The bulls we offer you have been screened and culled extensively for this sale, and are the results of over 50 years of performance testing and selection from Montana's first and original Charolais herd.

LINEBRED CONSISTENCY

August 1963

August 1998

MONTANA'S ORIGINAL CHAROLAIS RANCH

Performance Selection Since 1956

Records from Birth to Consumer

THE FERTILITY TESTING WAS DONE 3/10/25, SCROTAL MEASUREMENTS WERE DONE 3/10/25
BY HOFFMAN AI OF LOGAN, UTAH.

THE ULTRASOUND SCANS WERE DONE BY MATT LANE OF HUNTLEY, MT ON 3/14/25. THE ULTRASOUNDS
PROCESSED BY ULTRAINSIGHTS LAB OF IOWA AND THE AMERICAN INTERNAT'L CHAROLAIS ASSN.

DENNIS METZGER - AUCTIONEER

WESTERN LIVESTOCK AUCTION, GREAT FALLS, MT - 406-727-5400

DENNIS METZGER - SALE AGENT - 816-519-8208

'SIGHT UNSEEN' AND INTERNET BIDDING:

If you cannot be present at the sale, we can help you pick out what you want through our "Sight Unseen" program, and also provide you with an independent bid taker. We guarantee your customer satisfaction with the bulls, or your money back.

IF YOU WISH TO BID ONLINE, PLEASE FOLLOW THESE DIRECTIONS:

***Sale is broadcast **LIVE only on the website www.cattleusa.com**

1. ALL ONLINE BUYERS MUST BE PREREGISTERED ON THIS SITE PRIOR TO SALE DAY.
2. **Must call Barbara Jo at Western Livestock auction yard to confirm the registration** after submitting a buyer approval request on Cattle USA website
Western Livestock's office hours: Mon.-Thurs MTN time, 406-727-5400,
or email her: info@westernlivestockmontana.com

***Questions?

Please contact Barbara Jo at Western Livestock 406-727-5400 before sale day itself for answers, and to work out any remaining details.

TERMS—of the sale are only in U. S. Dollars currency in cash, check, or wire transfer unless the seller has approved other arrangements before the sale.

A job well done from the Trotter Ranch:

Mike, Karen & family near Richey, Montana

Crossbred feeder heifer and steer groups from the dry summer & fall 2007
Out of Stocker cows and Cobb Charolais bulls.

**All buyers must first register with the
Western Livestock Auction office before the sale.**

The office opens at 8 a.m. Mountain Daylight Time, phone number 406-727-5400.

DESCRIPTION OF SELLING PROCEDURES - TERMS AND CONDITIONS

PRELIMINARIES—will include essential announcements only, a brief description of the Cobb breeding program and the performance data in the catalogue and a review of the selling procedure. Thereafter bulls will be sold without pause, based on their records.

SALE ORDER—each in descending order of Weight Per Day of Age index.

AUCTION PERSONNEL—will include an auctioneer and at least two bid receivers.

THE SELLING ENVIRONMENT—every effort will be made to maintain a quiet atmosphere in which buyers can make their business decisions. The auctioneer will recite the current bid and the asking bid in a conventional chant, but will keep his delivery clear and deliberate. The delivery will slow at the end of bidding for each lot, to give the buyer some time to consider their bid decision. The animal must sell itself, based on its own record and appearance, supported by the seller's selective breeding program.

MINIMUM BIDS—The minimum bids shall be announced at the time of sale. All bulls will be sold to the highest bidder provided that the bid is not less than the announced minimum.

BIDDING—Bidders are requested to make clear signals to clearly identify the bidding. Potential buyers may request identification of the bidder at any time.

DISPUTES—among bidders will be settled by the announcer by reopening the bidding among the parties involved. If no further bid is made, the buyer shall be the party from whom the announcer accepted the last bid. The announcer's decision shall be final.

TERMS—of the sale are cash or check unless the seller has approved other arrangements before the sale. The right of property shall not pass and release of the cattle shall not be made until settlement is completed with the sale clerk.

PURCHASER'S RISK—begins as soon as the animal is sold. Bulls will be cared for at the seller's expense and the purchaser's risk until noon April 20, 2025 at the sale location.

CATTLE INSURANCE—will be available.

SHIPPING—all prices are F.O.B. Great Falls. Western Livestock Auction Center will assist in coordinating shipments immediately after the sale but no risk is assumed by Western Livestock or by the seller.

ANNOUNCEMENTS—from the auction stand will take precedence over printed matter in the catalogue.

CERTIFICATES OR REGISTRY—All bulls are registered with the American-International Charolais Association. Registration papers will be transferred to buyer upon buyer's request. We do not register with the Canadian Charolais Association.

HEALTH—all animals are virgin bulls and can carry clearance for interstate shipment.

BREEDERS GUARANTEE—all bulls have been tested for breeding soundness and are fully guaranteed breeders. Bulls must be demonstrated to be non-breeders, barring accident or illness, under normal conditions at their first breeding season, if any adjustment is to be made. Any other guarantees are solely between buyer and seller. In no instance shall seller be responsible for more than the purchase price.

ACCIDENTS—although every precaution will be taken to protect the safety and comfort of buyers, neither the Western Livestock Auction nor the seller assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

TRUCKING—A \$50.00 discount per bull if you truck your own bulls on sale day. Free delivery of bulls within 500 miles of Great Falls, MT to a central point. If bulls are to be trucked further than the 500 miles, buyer pays for the trucking amount AFTER this distance to the central delivery point.

EXPLANATION OF NUMERICAL VALUES

BIRTH WEIGHTS:

Birth weights themselves are no indicator of ease of calving. If the weight is in the length, very little calving trouble will develop. But if the weight is in the width or depth, trouble will be encountered. In our experience, it is the shape of the calf, more than weight that gives trouble.

205 DAY WEIGHTS:

They are mathematically corrected weights (not actual weaning weights) corrected as if every calf were born on the same day. The 205 day weight is the dam's milking ability. The bull has little to do with this factor except in crossbreeding. If you do not keep replacement heifers, the bull's 205 has no value.

NI-NURSING Index:

Cows are compared for milking ability. 100 is average. If you want to increase milk in your replacement heifers, pick a high NI.

145 Day Test Gain:

Our bulls are fed a high roughage ration, a specially formulated bull development feed provided for us by West Feeds, Great Falls, MT. Feeder calves are fed a high concentrate ration and should meet or exceed these gains.

145 Day Gain Index:

A comparison of gains, 100 is average. You must bear in mind that this is an index only within this particular herd and these particular animals. You cannot compare gains from one performance test to another due to different environment, climatic conditions, and rations.

Weight per Day of Age (WDA):

This is the most meaningful figure as to what the bull is himself. In our catalogue the bulls are placed and sold by WDA. You will notice that we have made no 365 day correction. The bulls WDA is for his individual lifetime of days from birth to the weigh-off date and weight. No correction of age of dam has been made.

WDA Index:

Comparison of WDA, 100 is average. WDA's are actual and not adjusted mathematically. If they were to be adjusted, those bulls from first calving cows would have much higher indexes.

Fertility Test:

All of these bulls have been examined for semen quality and structural and functional soundness. A fertility test only means that a bull's semen is capable of settling cows. We guarantee our bulls as breeders and fertile.

American-International Charolais Association papers will be furnished for the purebred bulls if desired upon request to sell.

Ultrasound

Ultrasound has been used to measure fat depth in beef cattle since the 1950's. Modern ultrasound technology can also measure ribeye area.

Carcass traits are supposed to be moderately to highly heritable. This means that the carcass characteristics of a bull will be passed on to his progeny, similar to average daily gain or weight per day of age.

Bull tests are based on average daily gain and weight per day of age. Ultrasound measurements go one step further and indicate whether bulls are growing muscle, or fat.

Fat: Back fat

Fat depth influences lean meat yield. Fat bulls have less lean meat in the carcass. Secondly the fat measurement gives an indication of the bull's fleshing ability.

Marbling (IMF or Intramuscular Fat)

Is the amount of internal fat in the muscle. A score of 3-3.9 is Standard (traces of marbling), 4-4.9 is Select (slight marbling), 5-5.9 is Choice, or small amount of marbling.

Ribeye Area

The REA indicates the ribeye area. The ribeye is the largest muscle in the body at birth, so REA gives an indication of overall carcass muscling. However, REA is influenced by body weight. Within a breed, the largest REA often belongs to the heaviest bull. Some REA is also expressed on a weight adjusted basis. Adjusting REA for body weight helps to determine which bulls are more muscular and which bulls are simply heavy bulls carrying a lot of weight.

As with all genetic traits, ultrasound measurements should only be compared among animals of similar age and breed that have been managed under the same environment. Since genetic improvement comes from within-breed selection, comparing measurements of individual animals from two different breeds is of little value. Finally, as with growth rate, carcass composition is partly dependent on the feeding program.

The importance of carcass trait information will increase as value based marketing and quality assurance programs become more widespread. However, many other traits such as reproductive performance, structural soundness, calving ease, growth rate and the birth, weaning and yearling weights must also be considered when incorporating carcass traits into a breeding program. Single trait selection is always discouraged.

PROFITABILITY MADE SIMPLE: THE AICA TERMINAL SIRE INDEX

The AICA Terminal Sire Index (TSI) utilizes EPDs and genomic data from the American-International Charolais Association (AICA) database to assist in identifying the most profitable genetics for your operation.

Using advanced economic selection index theory & bioeconomic modeling, the TSI generates dollar indexes for terminal progeny produced by bulls in the AICA database. These indexes rank sires based on their profit potential, allowing you to quickly make more informed decisions. For example, if Sire A has an index of \$191.66 and Sire B comes in at \$280.00, you can anticipate an average net return of \$88.34 more per offspring from Sire B. To consider that impact over 25 calves in 5 years, the increased profit potential would be expected to be more than \$11,000. TSI assumes that all offspring are marketed based on carcass value, while replacement females are either purchased or raised separately.

WHY USE TSI WHEN SELECTING BULLS?

- Allows you to make genetic progress across multiple EPD traits by selecting for one simple number
- Creates a comparison of the profit potential when comparing two or more bulls
- Factors in growth, performance, feed efficiency, carcass weight, quality grade, fat, and yield grade to ensure high profitability feeder cattle
- Based upon the AICA genetic database & proven USDA data to ensure accurate economic results
- Increases value potential of calves marketed through the CharAdvantage genetic verification feeder calf program
- Particularly beneficial when retaining ownership of cattle through the feedlot phase & harvest

OUR STORY

LiveAg is your go-to American marketplace specializing in the sale of livestock and agricultural equipment. Our cutting-edge software platform powers our operations, enabling both timed and in-person auctions as well as live video auctions — available all day every day — and integrating various sales methods into a single, comprehensive hub. Together with the broad cattle industry background of our leadership — more than 40 combined years between CEO Jason Barber and COO Ty deCordova — LiveAg's pedigree in livestock production and marketing is unmatched. With LiveAg, producers gain access to a vast network of buyers and sale barns, streamlining the marketing process across different agricultural sectors and making it easy to connect and transact within the ag community across the U.S. We are the first national company to combine the proven model of video auctions with a network of local auction markets across America while also maintaining a strong presence in the purebred cattle world. Our commitment to the cattle industry extends beyond only sale day; we provide the resources and personnel necessary to engage in multiple facets of cattle marketing and production.

## WHY ENROLL?

CharAdvantage is an age, source and genetic certification program designed to add more value to Charolais-influenced feeder cattle. By enrolling in this program, you receive source, age and genetic verification in the calf crop that you are currently marketing. By documenting this information, participants can add value for buyers seeking feeder cattle with a known background that can qualify for added marketing opportunities and programs. CharAdvantage staff partners with IMI Global to create these opportunities for producers who are seeking more premiums in the marketplace.

## OVERVIEW

There are two tag options to enroll in this program:

### Option #1

EID (Electronic ID)

Cost-\$4/head for EID Tag + Verification

### Option #2

EID + Visual Tag

Cost-\$5.25/head for EID Tag, Visual Tag + Verification

## REQUIREMENTS

75% of either sires or dams represented in the calf crop must be registered or recorded with AICA. Registration or recordation numbers of sires must be included on the enrollment form, regardless of ownership of the sire.

Groups of calves must predominately show Charolais characteristic (color).

All cattle enrolled must have a known age, as determined by the date of the first calf and last calf born in the calving season; or by individual birth dates of each calf.

Enrollments can only be made by the original owner of the cattle, and cattle must be owned by this participant at time of enrollment. All enrolled cattle must be tagged with a CharAdvantage EID tag at time of shipping.

**Call the AICA Office:**  
**(816) 464-5977**

# POUNDS MATTER

## PROFIT COUNTS

More than anything farmers and ranchers want to hear it straight. No gimmicks. No fluff. The truth and why it matters. So, when it comes to why their next bull should be a Charolais, let's tell them how it is: pounds matter and profit counts. From added weaning weight, to increased red meat yield and higher pay weights - Charolais bulls deliver the pounds that deliver your profit.
